

*PrimeMirror™*

*Other Mirrors*

## PRODUCT DESCRIPTION

PrimeMirror™ uses a proprietary manufacturing process that guarantees peak performance and protection against de-silvering and other types of corrosion.

## SPECIFICATION STATEMENT

Mirror glass shall have a copper-free formulation developed to withstand the corrosive elements associated with humid environments, as well as protect the environment. Mirror must be CASS Tested<sup>1</sup> by a Nationally Recognized Testing Laboratory (NRTL) and certified to offer at least 180 hours of essentially faultless performance, free from black-spot, edge rot, ghosting and other signs of degradation. Mirror must be backed by a minimum 3-year warranty as evidence of outstanding performance.

## THE CORDOVA MIRRORS ADVANTAGE

- ☑ High-quality products at a value price
- ☑ Carefully chosen, globally sourced materials
- ☑ Natural-looking LED lighting for a superior reflection
- ☑ Best-in-class customer service team
- ☑ In-stock products ready for immediate shipment

## FEATURES AND BENEFITS

- More than double the life of other mirrors
- CASS Tested to 180+ hours of faultless performance
- Resists black spot, edge rot, and mold corrosion
- Reduces replacement mirror expense
- Copper-free
- 3-year limited warranty

<sup>1</sup> The Copper Accelerated Acetic Acid Salt Spray (CASS) Test is a standardized method used around the world to determine corrosion resistance of materials and coatings. CASS Testing for mirrors involves placing mirror samples in a special CASS Chamber and subjecting them to a continual attack of corrosive agents that mimic a bathroom environment. The longer the samples remain corrosion free, the longer they will perform in an actual bathroom.
